NOTICE OF POLLING DISTRICTS & POLLING STATION REVIEW

Review of Polling Districts and Polling Places in accordance with the requirements of Section 18C(1) of the Representation of the People Act 1983 and Electoral Registration and Administration Act 2013.

The Local Government Boundary Commission for England has now published its final recommendations for new electoral arrangements for Redcar & Cleveland Borough Council. The recommendations must now be approved by Parliament and a draft order, to bring in to force their recommendations, has been laid in Parliament. Subject to Parliamentary Scrutiny, the new electoral arrangements will come into force at the Local Elections in 2019.

The Local Government Boundary Commission for England has recommended an increase in the number of wards within the Borough from 22 to 24. Each Ward is required to be sub-divided into polling districts; the number of polling districts will however decrease from 101 to 86. All polling districts have been re-categorised using with new reference letters which are more meaningful to the Ward and Parliamentary Constituency, for example BMTAM, where BMT reflects the ward (Belmont), A defines the sub district and M is the constituency the ward belongs to (Middlesbrough South and East Cleveland).

A polling place is provided for electors living within each polling district. The changes to Wards mean that the Council was required to carry out a review of polling districts and polling places within the Borough, pursuant to Section 18C of the Representation of the People Act 1983. Redcar & Cleveland Borough Council is therefore conducting a review of the polling districts and polling places.

The Electoral Administration Act 2006 requires the Council to carry out a review every four years. The council is required to exercise its duty to review polling stations in the Borough with a view to giving all electors such reasonable facilities for voting as are practicable, and so far as is reasonable and practicable, to designate as polling places only places which are accessible to electors who are disabled.

A polling place for a polling district is expected to be an area in that district, except where special circumstances make it desirable to designate an area wholly or partly outside the polling district. Any polling district is expected to be small enough to indicate to electors in different parts of the polling district how they will be able to reach the polling station.

The main issues considered in the development of the proposals for polling districts and polling places are as follows:

- No more than 2,500 electors should poll at any one polling station (not including postal voters); however there can be more than one polling station in a polling place.

- The location, size and layout of a polling station when deciding the number of electors to be allocated to a polling district.
- Proposed future developments in the Borough that will increase the number of houses and the potential number of electors in a ward or polling district over the next four years.
- Accessibility to polling places for people with disabilities.
- Whether the proposed polling places avoid barriers for the voter including major roads, rivers, steep hills etc.
- Feedback received following recent elections raised by members of the public, Elected Members or The Police about particular polling places is considered appropriately.

The Acting Returning Officer's proposals for the new Polling Districts and suitability of Polling Places will be published by 1 October 2018 and will be available for inspection in Redcar & Cleveland Borough Council Libraries and on the council's website www.redcar-cleveland.gov.uk/pollingreview .

The final date for comments on the Acting Returning Officer's representations is **Wednesday 31 October 2018**. Please note that that all representations are required by law to be published and that if an individual does not want their representation attributed to them; they will need to let us know.

Please send representations to:

The Acting Returning Officer
Redcar & Cleveland House
Kirkleatham Street
Redcar
TS10 1RT

Email: electoral_registration@redcar-cleveland.gov.uk

What happens next?

Once the Consultation period has closed, all comments and suggestions will be considered and the Returning Officer will approve the final recommendations.

Once approved the new polling districts and stations will be posted on the Council's website and will be used in the 2019 Local Elections. Any by-elections held before 2 May 2019 will be based on the current ward, polling district and station information.

OTHER RELEVANT INFORMATION:

ALTERNATIVE LOCATIONS:	REASONS FOR NOT USING PREMISES
Huntsman Pub to accommodate 1471 electors coming over from the Hutton ward (BMTAM)	There would be concerns regarding the security of the ballot box and the experience for voters. We would not have sole use of the pub and would be reliant on screens to cordon off a particular area for voting, as there is not a separate room that could be used. The school has already been successfully used as a double station, and there is room to accommodate a third.

ALTERNATIVE LOCATIONS:	REASONS FOR NOT USING PREMISES
Locke Park Pavilion has been identified as an potential alternative for electors in polling district DTNDR	The Pavilion sits within Locke Park and would require additional temporary lighting to be installed to enable visibility during darkness. It has a small carpark further away from the Pavilion and the easiest access is via the entrance on Corporation Road; resulting in anticipated parking on the main road. If this venue were to be used, a security presence may be required.

ELECTORAL OFFICERS COMMENTS:

Location & suitability	This is an existing site, we are proposing to use the bungalow at the back of Westgarth school to minimise disruption to St Bede's school. This building has had a full renovation
Parking	On street
Access	Fully accessible
Facilities for staff	Satisfactory
Recommendation	A suitable public building

RETURNING OFFICERS COMMENTS:

This site has been used for several previous elections however instead of using the school building itself, we have been offered an alternative venue (the old caretaker's bungalow) behind Westgarth School which is shared with St Bedes. This will be a double station as the new housing development that sits in the LBKCR polling district are not parished and will need to be administered separately. This polling station does not sit within the ward but has been used over the years as there has been no other building identified as being suitable, or available, within the ward boundary itself.
