## **BUILDING CONTROL CHARGES SCHEME**

### **NOTES FOR GUIDANCE - operative with effect from 01/04/2023**

#### **INTRODUCTION**

1. Before you build, extend, alter or convert your property, you or your agent (Architect, Builder, Developer etc) must advise the Local Authority by submitting a full plans application or a building notice.
2. If you submit a full plans application, the Building Control Section will examine the details and advise you of any necessary changes required to meet the Building Regulations. Once building work has commenced on site, it will be inspected by our Building Surveyors at various stages of the construction process.
3. If you submit a Building Notice and a notification of commencement, work can then start two days later. Building Control Surveyors will visit the site at various stages of the construction process to ensure that the work undertaken conforms to the Building Regulations.

#### **FUNCTIONS FOR WHICH BUILDING CONTROL CHARGES ARE MADE**

1. **Full Plans** - The charge in respect of the examination of building plans deposited with a full plans application and the subsequent issuing of a decision notice. The fee is paid at the time of the deposit of the full plans application with the Authority.
2. **Site Inspection** - The inspection charge is payable in respect of the inspection of building work at various stages of construction for which a full plans application has previously been deposited. The inspection charge will be invoiced following the first inspection of the building work. The invoice will be sent to the applicant unless other arrangements are made at the time of application. A completion certificate is issued upon satisfactory completion of work.
3. **Building Notice** - The fee is paid when the notice is submitted to the Authority. As no plans are deposited using this procedure a decision notice cannot be issued. The fee covers site inspections at various stages of construction including completion.
4. **Regularisation** - The fee is paid at the time of application to the Authority for a Regularisation Certificate in respect of unauthorised building work commenced after 11 November 1985.

#### **CHARGES**

There are two methods of establishing a charge for work subject to the Building Regulations to cover the cost of the Building Control service - a standard charge or an individually determined charge.

#### **STANDARD CHARGES**

The standard charges for a wide range of domestic and commercial new build, extensions and alterations are listed in the following tables:

<b>Table A</b>	Erection of new dwellings or conversions to form dwellings
<b>Table B</b>	Domestic extensions to a single dwelling
<b>Table C</b>	Domestic alterations to a single dwelling
<b>Table D</b>	Erection or extension of certain non domestic buildings
<b>Table E</b>	Alterations to non-domestic buildings

If your project is not covered in the tables the charge will be individually determined and you should contact Building Control for a quotation.

The standard charges have been set by the Authority on the following basis:

1. that the work does not consist, or include, innovative or high risk construction techniques
2. the duration of the building work from commencement to completion does not exceed 12 months
3. the design and building work is undertaken by a person or a company that is competent to carry out that work.

Where this is not the case, the work may incur supplementary charges. For example an archive fee of £55.00 (inc VAT) is payable if it has been 3 years or more since the last inspection and further visits are required before the completion certificate can be issued.

## INDIVIDUAL DETERMINATION OF CHARGES

Charges must be individually determined for larger and/or more complex schemes and you should contact Building Control for a quotation. This includes:

- ❖ Building work for which there is no standard charge in tables A-E below including:
- ❖ Work consisting of the erection or conversion of more than 20 dwellings
- ❖ Work consisting of the erection or conversion of dwellings where the floor area of a dwelling exceeds 300m<sup>2</sup>
- ❖ Building work that is relation to more than one building
- ❖ Applications subject to a reversion charge

## PAYMENT

- ❖ Cheque made payable to Redcar & Cleveland Borough Council
- ❖ Cash delivered in person
- ❖ On-line via the Redcar & Cleveland Borough Council website \*pay for it facility". To use this method an application reference number is required.

## NOTES

1. Applications and notices not accompanied by the appropriate fee are deemed as NOT being submitted. Consequently work should NOT commence on site.
2. A charge is not applicable where work is to provide access and facilities in an existing dwelling for the exclusive use of a person with a disability.
3. All charges with the exception of the Regularisation Charge include VAT at the appropriate (20%) rate.
4. These notes are for guidance only and are not a substitute for the Statutory Instrument 2010 No.404 or the Redcar & Cleveland Building Control charges scheme.
5. Additional charges will be invoiced at completion where the relevant competent person scheme information cannot be provided upon request.

Garages and Carports					
Erection or extension of a non exempt detached domestic garage or carport up to 100m <sup>2</sup>	£280.00	£280.00	Included in Plan Examination Fee	£330.00	£365.00
Erection or extension of a non exempt attached single storey extension of a domestic garage or carport up to 100m <sup>2</sup>	£280.00	£280.00	Included in Plan Examination Fee	£330.00	£365.00

The charges in Table B apply to an extension only. Where it is intended to carry out other alterations at the same time as the extension, the charges outlined in Table C will also apply. However, a reduction in the combined charge will be applied. For example: It is proposed to build a single story extension of 35m<sup>2</sup> and also carry out internal alterations to form a new en-suite bathroom costing £3,500:

Table B plan charge for extension = **£210.00**. Inspection charge = **£505.00**. Total charge = **£715.00** Table C plan charge for alteration = **£225** x 50% = **£112.50**. Inspection charge = £0. Total charge = **£112.50**

Total Charge for extension and alterations = £715.00 + £112.50 = £827.50

The standard charges assume the use of a Part P registered electrician to carry out relevant electrical work. If there is no relevant electrical work involved in an extension or alterations this is also accounted for in the standard charge. An additional charge of **£365** will apply (in order to recover the Local Authority's costs) where the electrical work is NOT carried out by a Part P registered electrician i.e. a qualified electrician who also has the necessary building regulations knowledge to enable his/her accreditation body or competent person scheme to certify his/her work.

If you are carrying out multiple extensions and/or multiple types of alterations **at the same time** the authority will be able to reduce the standard charge, you should ask for an individual assessment of the charge for this type of work.
