

Our new vision for our libraries service and our priority focus areas have been developed following the first stage of engagement with the public, partners and stakeholders and the wider needs assessment. You told us what was important, what you thought could be improved and where you thought there could be new activity or programmes developed:

'We will have a vibrant, thriving, inclusive and engaging library service that enriches people's lives and enables a range of connection and engagement points for our communities.'

In order to realise this vision, we have identified a number of priority focus areas:

- Strengthen delivery and create programmes of work that support the Universal Offer Reading, Information and Digital, Culture and Creativity, Health and Wellbeing; and The Children's Promise and The Vision and Print Impaired People's Promise.
- Relaunch and market the library to users and non-users to increase engagement and awareness.
- Develop an ambitious plan for outreach and partnerships
- Provide a strong literacy, reading and engagement offer for all ages, but with a strong focus on Children and Young. This also includes new book stock and an increase in book budgets.
- Increase the quality of the activities and programmes delivered.
- Create and deliver an offer that supports the Health and Wellbeing of our communities.

  Funding has been secured to employ a Health and Wellbeing Development Officer who will be able to drive this forward and work with the community to cocurate activity and programmes.
- Develop a more sustainable and resilient library service. This will include the development of external funding bids to deliver programmes of work and the creation of more partnership working. It will also look to secure funding both internally and externally to improve the physical library buildings. It will also look at a volunteer and ambassador scheme.

#### 3. Reduction of the Physical Library Network

We are proposing to close Brotton and Roseberry Library, and facilitate Laburnum, Dormanstown and Grangetown Libraries to become community led facilities. Therefore, the three community facilities would remain in use, but without a statutory library service offer.

The evidence shows that the libraries we are proposing to close have lower levels of usage and have another library within close proximity with public transport links.

4. Getting Involved In the first phase of consultation a lot of people told us they would like to volunteer within the library service. We value the input of our residents in supporting the service and we would not like to explore a range of volunteering opportunities across the library network. This would go an opportunity not only to support the service and your local community, but to be a part of delivery of our new libraries' strategy; helping to shape the way our libraries are delivered in future.	w ive the

#### **5. Opening Hours Consultation**

Our libraries currently operate a range of opening hours – based on usage, location and facilities. As part of the consultation, there is a proposal to reduce opening hours across our libraries. The consultation on opening hours will consider the eight libraries which we are not proposing to close or transfer to become a community asset.

The proposal to reduce opening hours is necessary in order to deliver against the principles of our future vision of the service, with a focus on quality rather than quantity. The proposals will consider some of the themes from the first phase of consultation, through which a desire for more flexibility in opening times was evident, and also be informed by current usage to ensure we are correctly resourcing our libraries in order to best meet user needs. This is also necessary in order to balance a target for significant efficiency savings with the need to deliver a service which is best suited to our residents.

The current opening hours, along with the proposed new reduced opening hours for each library is detailed below:

Library	<b>Current Opening Hours</b>	Proposed Opening Hours	Change
	(per week)	(per week)	
Redcar Library	47	40	-7
Guisborough Library	47	40	-7
South Bank Library	47	40	-7
Loftus Library	31	31	0
Skelton Library	31	26.5	-4.5
Marske Library	31	26.5	-4.5
Ormesby Library	31	26.5	-4.5
Saltburn Library	31	26.5	-4.5

Based on these proposed reductions, we have provided two options for changes to opening times for each library – this reflects the need for a reduction in overall opening hours but provides different scheduling options which could see libraries open later on an evening, or longer at the weekend.

The options for each library are below, for each library you use, or for as many as you wish, please indicate whether you believe Option A or Option B would be the most suitable opening schedule for the library.

Please note, these options have been developed based on a proposed schedule we believe could work and what we know so far from the initial public engagement, the new opening hours will be finalised once we have received and analysed all responses to the consultation and could look slightly different to the proposed options based on user need.

In order for us to understand your desired usage times for the library or libraries that you visit, we want to understand which times of the day/week are most suitable/important to you for using the library. We recognise some users may use more than one of our libraries, so have provided the option for you to comment on your usage for up to three libraries.

Please pick up to six options for each of the libraries, selecting which days of the week and which times of the day it is most important for you to use those libraries. Please mark the selected boxes for your options with an X.
