

Adults and Communities Directorate Receipt of Financial Assessment Form FA1 (January 2026)

This form should be completed if you:

- Have been assessed as being eligible for social care and support **and**;
- Have capacity to make decisions about your property and financial affairs **or**
- Have legal authority to make financial decisions on behalf of the person who has been assessed as being eligible for social care and support **or** intend to apply for legal authority.

If you wish to see if you could get help towards the cost of care:

The council will arrange the care that you need from the date that you are assessed as requiring it. Although some care and support services are free, most are chargeable. This means that most people have to pay something towards their own care, and some will have to pay the full cost. On occasion, additional care and support may need to be put in place in emergencies or adverse situations. This care may also be chargeable as per the outcome of your financial assessment.

We will carry out a financial assessment to determine whether you need to pay for your care or whether you are entitled to any assistance. This means we will look at how much money you receive, how much money you have to pay out each week and how much you have saved or invested. Government rules set out how we must calculate your contribution towards your care. If you have savings or capital above £23,250, you will be required to pay the full cost of your care.

In order for us to carry out this assessment, you must complete a Financial Assessment Form (FA2). If you are required to pay a contribution towards your care whether in part or in full, you will be required to do so from the date your care began.

If you do not complete a financial assessment form, you will be responsible for paying the full cost of your care.

If you are willing to pay for the full cost of your care service yourself:

You do not need to have a financial assessment. If you decline a financial assessment, but wish for us to arrange your care and support, you will receive a bill for the full cost of your care and any associated administration fees. You can ask for a financial assessment in the future, but any contributions you are entitled to would only be backdated to the date of the financial assessment, not to the start of your care.

This form should be completed for all adults receiving care & support

(regardless of whether a financial assessment is required).

Part A: Please complete Part A if you have care and support needs and have capacity to make decisions about your finances.
