## Further consultation on our proposals for H2Teesside

Dear Sir/Madam,

As you may be aware, we're proposing to build a new blue hydrogen production facility on Teesside, known as H2Teesside. It aims to be one of the biggest blue hydrogen production facilities in the UK, delivering economic growth for Teesside and the domestically-produced low carbon hydrogen that the UK needs.

We held a consultation on our proposals for H2Teesside between 14<sup>th</sup> September and 26<sup>th</sup> October 2023. The feedback we received has been used, alongside further assessment and technical work, to review our project design. As a result, we have now identified several changes to our proposals and have launched a consultation on these changes. This consultation will run from 13<sup>th</sup> December 2023 until 23<sup>rd</sup> January 2024.

You can find out more about our H2Teesside proposals and our changes to them by:

- Viewing our Project Update Brochure and updated plans on our project website: [www.h2teesside.co.uk](http://www.h2teesside.co.uk)
