

About this guide

This list includes organisations who are not contracted to provide Community Care and Support Services through Redcar & Cleveland Borough Council but have been approached as we cannot fulfil demand with framework providers. Community Care and Support Services are also known as home care or domiciliary care. They are services that help you with everyday activities so that you can keep your independence for as long as possible. The types of support that they offer include:

- Helping you to getting out of bed, or get ready for bed
- Personal care, such as washing or dressing
- Getting out and about in your community
- Cooking or preparing meals
- Taking medication

If there is anything in this guidance that you do not understand, please speak to your health or social care worker using the contact details provided at the end of the guide.
